TECHNICAL DATA

Intertek/Warnock Hersey
Fire Rated Assemblies

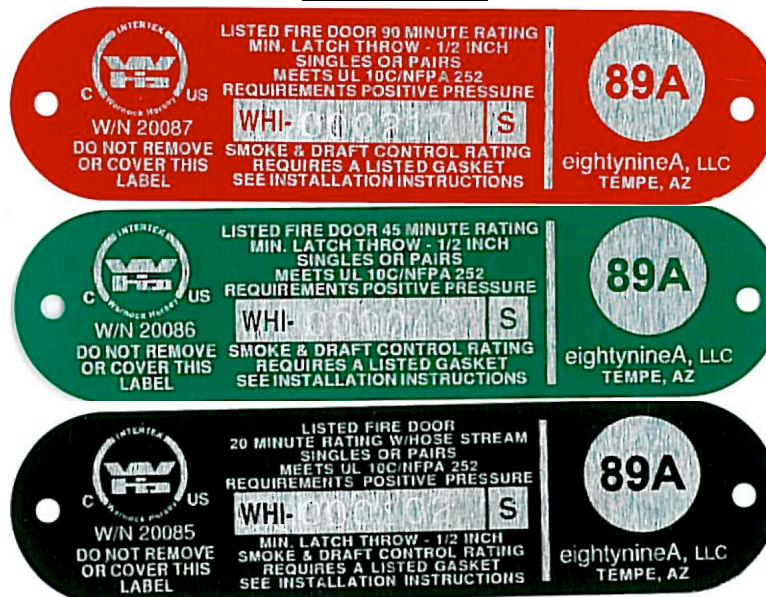

1. All hollow metal fire rated products produced and/or supplied by EightynineA are tested and approved for fire ratings in compliance with UL10B, UL10C and are UBC 7.2 compliant when used in conjunction with proper gaskets and/or seals.
2. Compliant assemblies shall bear aluminum fire labels fixed at eye level on the hinge jambs of frames and hinge stiles of hollow metal doors. In the case of mortised continuous hinges the labels will be attached in the door rabbet at the frame head and on the top of the door.
3. Each door fire label will show the requisite unique time durations required. Standard three sided door frames shall bear a fire label stating that the time duration range is from 20 min. through 90 min. Window, sidelight and 3 hour frames shall bear specific time duration labels.

See below for samples of standard EightynineA fire labels. Other photocopied samples can be provide upon request.

Three Sided Frame Label

Door Labels

EightynineA is a Member of HMMA – Hollow Metal Manufactures Association a division of the NATIONAL ASSOCIATION OF ARCHITECTURAL METAL MANUFACTURES - NAAMM
